

United Plant Savers Nursery & Bulk Herb Directory

Specializing in Native Medicinal Plants

UNITED PLANT SAVERS ~ ACTIVELY PLANTING THE FUTURE

United Plant Saver is an exciting grass-roots organization comprised of people who love and appreciate plants and who are particularly concerned with the status of 'at risk' native medicinals. We are in the midst of carrying out a variety of tangible projects all with the goal of long term plant conservation in mind.

Many of our members are interested in growing medicinal plants, both individually and commercially with the focus on restoring those on the UpS "At-Risk" and "To-Watch" lists. Since 1996 we have been compiling names of individuals, nurseries and farms that supply these plants. Our intention is to not only provide members with resources of where to obtain these plants, but to make the ethical business of medicinal plant propagation more profitable than the practice of wild collection of "At-Risk" plants. Generally the wild collection of seed for resale purposes is considered ethical as long as the regenerative potential of wild plant colonies is not jeopardized.

The resources listed in this catalogue have been contacted directly by UpS and have filled out a statement form that states they are selling nursery-propagated stock. When ordering seeds/plants/herbs from any of these companies, let them know that you saw their listing in the UpS Nursery and Bulk Herb Directory.

This is an ongoing project and we continually update the Directory. If you know of other resources that should be included or individuals you think we should contact, please let us know. **Send information on nurseries, farmers and growers directly to UpS Nursery and Bulk Herb Directory, P.O. Box 400, East Barre, VT 05649.**

For information on United Plant Savers write to:

UpS, P.O. Box 400, East Barre, VT 05649

Website www.unitedplantsavers.org

This Directory is up-dated biennially for members. Last update: January 2012

~ "At-Risk" List ~

*Following are the **UpS "At-Risk"** (At Risk now in its natural environment) and **"To-Watch"** (potential to become At Risk in the future) lists of plants that are currently most sensitive to the impact of human activities such as habitat destruction, development and over-harvesting. UpS has not called for a moratorium on the use of these plants. Rather, we are initiating programs designed to preserve these important medicinal plants in the wild and are calling on others to join our efforts.*

American Ginseng - *Panax quinquefolius*
Black Cohosh - *Actaea racemosa (Cimicifuga)*
Bloodroot - *Sanguinaria canadensis*
Blue Cohosh - *Caulophyllum thalictroides*
Echinacea - *Echinacea spp.*
Eyebright - *Euphrasia spp.*
False Unicorn Root - *Chamaelirium luteum*
Goldenseal - *Hydrastis canadensis*
Lady's Slipper Orchid - *Cypripedium spp.*
Lomatium - *Lomatium dissectum*
Osha - *Ligusticum porteri, L. spp.*
Peyote - *Lophophora williamsii*
Sandalwood - *Santalum spp.*
Slippery Elm - *Ulmus rubra*

Sundew - *Drosera* spp.
Trillium, Beth Root - *Trillium* spp.
True Unicorn - *Aletris farinosa*
Venus' Fly Trap - *Dionaea muscipula*
Virginia Snakeroot - *Aristolochia serpentaria*
Wild Yam - *Dioscorea villosa*, *D. spp.*

~ "To-Watch" List ~

Arnica - *Arnica* spp.
Butterfly Weed - *Asclepias tuberosa*
Cascara Sagrada - *Frangula purshiana* (*Rhamnus*)
Chaparro - *Casatela emoryi*
Elephant Tree - *Bursera microphylla*
Gentian - *Gentiana* spp.
Goldthread - *Coptis* spp.
Kava Kava - *Piper methysticum* (Hawaii only)
Lobelia - *Lobelia* spp.
Maidenhair Fern - *Adiantum pendatum*
Mayapple - *Podophyllum peltatum*
Oregon Grape - *Mahonia* spp.
Partridge Berry - *Mitchella repens*
Pink Root - *Spigelia marilandica*
Pipsissewa - *Chimaphila umbellata*
Spikenard - *Aralia racemosa*, *A. californica*
Stillingia - *Stillingia sylvatica*
Stone Root - *Collinsonia Canadensis*
Stream Orchid - *Epipactis gigantea*
Turkey Corn - *Dicentra Canadensis*
White Sage - *Salvia apiana*
Wild Indigo - *Baptisia tinctoria*
Yerba Mansa - *Anemopsis californica*

NURSERY DIRECTORY

The companies listed below have verified that the plants/seeds offered for sale are nursery-grown stock and are not harvested from the wild for resale purposes. Seeds of some species may be wildcrafted for resale but are done so in an environmentally responsible manner that ensures adequate regeneration of wild plant colonies.

Bison Belly Futures

S11793 Hazelnut Road, Spring Green, WI 53588

Phone: 608-588-2048

Email: bbf.gigi@earthlink.net

Contact: Gigi La Budde

Specializes in propagating the long-lived, slow-maturing 'fleshy rooted forbs' native to the Midwest's woodlands and savannas. All plants are nursery-grown and originate from Wisconsin seed or rootstock. Species offered include goldenseal, jack-in-the-pulpit, white baneberry, solomon's seal, wild ginger, blood root and blue cohosh.
